## PEC Breather/Fillport

### Highlights

- Proprietary media reduces dew point temperature to prevent condensation and is 99.7% efficient in blocking particles 3 micron and larger.
- Reversible flow through media allows for moisture to exit the reservoir even when machine is not running.
- Easy Installation, light weight design; only needs to be hand tightened.
- Rugged housing protects the media from external splashing.
- \$xxx installed, order part number: QXXXXX

*We keep you working.*
